

CANADIAN TIMESAVER™ 2-8°C SERIES

Pre-Qualified Shipping Containers

The Canadian TimeSaver™ 2-8°C Series is a versatile series of pre-qualified kits that maintain a 2-8°C temperature range up to 48 hours. These off-the-shelf packing systems have been qualified by our team of engineers against extreme temperature profiles specifically for the Canadian health care distribution network. You will save both time and money by avoiding the process of package configuration development and performance testing.

Packout optimization ensures the right amount of refrigerant and insulation are used to keep costs low without sacrificing performance.

Sold as kits, TimeSavers™ include the following:

- ✓ Outer box
- ✓ EPS insulation panels
- ✓ Payload box
- ✓ Gel packs
- ✓ Packing instructions
- ✓ Abridged qualification report

All packout materials are made in Canada.
